Lancaster Farming

VOL. 11 NO. 6 | Lancaster Farming, Saturday, January 8, 1966 | $2 Per Year

GOLDEN ANNIVERSARY insignia for the 50th Pennsylvania Farm Show denotes progress in Pennsylvania agriculture.

Golden Anniversary Farm Show Salutes Progress In Pennsylvania Agriculture

The theme of the 50th Pennsylvania Farm Show which opens its doors next Monday will be "A Salute to Progress In Pennsylvania Agriculture" The show will run from January 10-14, at the Farm Show Building, Harrisburg

It will provide an amazing contrast with the first show held in 1917 in a downtown farm machinery dealer's building, and attended by about 5,000 people.

The idea of having a statewide farm show culminated in a meeting of farm leaders in Lancaster at the old Leopard Hotel with various officials of the department of agriculture. A show committee was formed, and plans were drawn up which led directly to that first Farm Show.

As agriculture became more mechanized, and the role of the farmer more complex, machinery exhibits and educational meetings became the highlights of the Farm Show. In recent times, with the gradual reduction in number of farmers, the Farm Show continues to be a major attraction for hundreds of thousands of consumer families, many getting their first close contact with livestock and farm products.

All the exhibit space in the 13-acre State Farm Show Bldg. had been assigned by early December for this show. Commercial exhibits, ranging from silos to seed corn, and

Funk Elected SWCD Chairman For 14th Term; Associate Directors Cooperation Urged For 1966

Amos H. Funk

The Lancaster County Soil & Water Conservation District directors named Amos H Funk, Millersville R1, to his 14th year as chairman, Monday night Also reelected were Henry Hackman, vice-chairman, and Garland Gingerich, secretary-treasurer

The meeting, held at the Farm Credit Bldg, Lancaster, was largely devoted to getting acquainted with the associate directors, many of whom were newly appointed, and to inform them on their function in the district

Director Henry Hackman outlined the organization of the soil and water conservation district for the two-dozen associate directors attending the meeting Hackman explained that the district is a means whereby local people control the types of conservation programs they want, and utilize various federal funds and services to accomplish this goal. He said that the associate directors are ambassadors for conservation, and that each of them is an oasis in his area, serving as an example and a source of information for his neighbors.

Chairman Funk reported

New Feeder Pig Grade Standards Are Adopted

The U. S. Department of Agriculture has announced the adoption of official standards for 5 grades of feeder pigs which became effective Jan. 1, 1966

The 5 grades established by USDA's Consumer and Marketing Service are U S No 1, 2, 3, Medium, and Cull These grade names are the same as those for slaughter hogs and pork carcasses.

The new standards provide for the evaluation of 2 general value-determining characteristics of feeder pigs — their logical slaughter potential and their thriftiness For example, if a feeder pig is graded U S No 1, it has the potential for developing into a U S. No 1 slaughter hog that will produce a U S No 1 carcass. Thriftiness is the ability of a feeder pig

Vo-Ag Teachers Plan For Fair Fund Budget

The Lancaster County Vocational Agriculture Teachers Association met Thursday at Garden Spot High School, New Holland Topping the agenda was development of a proposed budget for distribution of this year's fair fund

The fair fund allocates $2,000 annually to use by the county FFA chapters for their various activities These activities include the FFA hog show, chapter parliamentary procedure contests, public speaking contests, Chapter Star Farmer awards, FFA scholarships, and many more

Committees were selected for each of these major activities Each teacher was

Fisher Filler Entry 1st In Open Tobacco Show; Thomas In FFA

Melvin S. Fisher of Strasburg R1, a perennial tobacco show winner, topped a 168-entry field Thursday in the Lancaster County Tobacco Show with championships in both the wrapper and filler classes The champion entry of the open show, held at the Bayuk Cigar Co warehouse, was Fisher's long-filler leaf.

Winner of the short filler class was Roy M Rohrer, Strasburg R1 Melvin L Long of Lititz R3 was first in long wrappers, with the champion binder award going to Robert B. Leed, 2421 Fruitville Pike, Lancaster. Witmer J. Rohrer of Strasburg R1 placed first in the short binder category

In the vocational competition, Richard Thomas of Millersville R1, won his second championship in a week Last week Thomas won first place honors in filler tobacco leaf and second prize in wrapper leaf at the 4-H corn and tobacco exhibit. This week his filler entry was rated the best overall tobacco in the 60-entry FFA show.

Judging the event was Ben

(Continued on Page 4)

The annual FARM SHOW section will be found on pages 13 through 20 of this issue of Lancaster Farming. The section includes feature stories about the show, a story on Lancaster County's FFA Keystone Farmer Degree winners, and the complete Farm Show schedule. We suggest you lift the section out and take it to the Farm Show with you. Other regular features of **Lancaster Farming** will be found in their regular spots in the paper.

Weather Forecast

The outlook for the next five days calls for temperatures to average below the normal range of 39-24 degrees. It will be cold over the weekend, with temperatures moderating somewhat Monday, then colder again Tuesday and Wednesday.

The expected Farm Show precipitation "will" occur as rain Monday night, followed by possible rain or snow on Tuesday.

Weekly Poultry Report

Eastern Pennsylvania And New Jersey

WEEKLY SUMMARY

LIVE HENS

Light type hen prices continue unchanged. Demand irregularly fair to good. Offerings barely adequate with increased processing supplies brought in from New England and Virginia. Demand good for scarce offerings of heavy hens. Few area flocks priced at 20-21c. Prices paid at Farms: Light Hens 8-9, mostly 8½c; Heavy Hens, too few sales to report prices.

TURKEYS

No trading reported. Market quiet.

Fogelsville

January 4, 1966

Prices for dock weights, cents per lb. except where noted.)

Hens, light type, range 7½-10, mostly 7½-8½; Hens, Heavy type, range 9-24, mostly 13-20½; Pullets, range, 20-35, mostly 29-31; Roasters, range 15-27, mostly 24-27; Capons, range 22-40, mostly, 32½-40; Ducks, range 18-25½, mostly 23-25½; Drakes, range 29½-37½, mostly 32-37½; Geese, range 33½-38; Turkeys, Toms, range 23½-25; Turkeys, Hens, range 20-34, mostly 29½-34, Pigeons (per pair), range 67½; Jumbo Squab, range 85, Rabbits, range 30-35, mostly 43-448.

Total coops sold. 892.

Eastern Shore Exchange

WEEKLY SUMMARY

Broiler and fryer live prices on the Eastern Shore Exchange averaged 15.99 cents per lb. this week, practically unchanged from last week's average.

Prices paid ranged from a high of 16.6 cents on Monday to a low of 15.3 cents on Wednesday.

Sales for the week totaled 1,282,300 head, up nearly one-half million head over the sales from last week's three-day market.

Delmarva

January 7, 1966

Delmarva broiler and fryer live prices advanced more than ¼-cent with good demand for heavy auction offerings. Live supplies in balance with needs and weights well distributed.

Estimated slaughter for Friday and Saturday — 1,007,000 head, compared to 630,000 head last weekend.

In the 24 hours preceding market close on Friday, prices paid at farms and total sales: broilers and fryers, 15 6-16 5 cents per lb; 1,110,300 head.

REMINDER — EPHRATA WELDING COURSE STARTS

January 10 marks the starting date for this year's adult welding course at Ephrata High School.

The course will cover the fundamentals of arc welding in an eight-week session.

Classes will be held on Monday nights at 7 30 in the agriculture shop, and will be under the direction of Charles Ackley, vocational agriculture teacher.

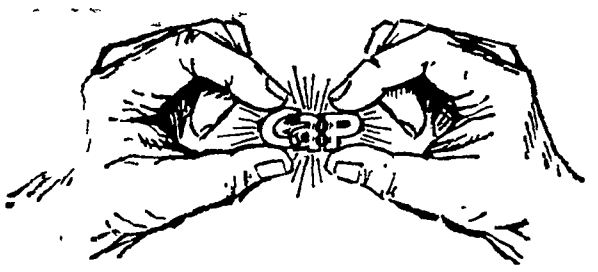
Beacon now offers dairymen a

NEW CONCEPT

in dairy nutrition to promote

- **Better Herd Health**
- **Cow Longevity**
- **Higher Milk Production**

All Beacon dairy rations are now formulated with new narrower, scientifically balanced calcium:phosphorus ratios that are experimentally proven.



Beacon dairy rations now carry 15% more **total** phosphorus and 30-40% more **available** inorganic phosphorus than previously. The new phosphorus source is more soluble in the digestive tract and thus has greater biological availability.

The new availability and new higher levels of phosphorus plus the narrower calcium:phosphorus ratio mean better digestibility of the total ration, more efficient calcium utilization (important to bone formation and milk production) and are helpful in keeping calcium blood serum values above the level where milk fever occurs. Higher available phosphorus also means better conversion of carotene to vitamin A.

Other improvements include the addition of magnesium (needed for proper body metabolism and to prevent grass tetany) and zinc (important in hide and hair health).

These changes bring dairymen better nutrition for their herds, will improve the utilization of many nutrients and promote better herd health and productivity.

We have full information on all Beacon dairy rations. Why not call us today?

Fifty Years Of Farm Show Progress

The first official, state "farm show" was held in 1917 at 10th and Market Sts., Harrisburg. It was called "The Pennsylvania Corn, Fruit, Vegetable, Dairy Products and Wool Show"! How about that? Since only the products listed in that title could be exhibited, aren't you glad they didn't stay with that idea as swine, steers, honey, nuts, poultry, eggs, etc. were added? We are!

About 5000 farm and city folk attended that first show. Secretary of Agriculture Bull estimates an attendance of one-half million for this year's Golden Anniversary Farm Show. This seems like a reasonable estimate since at least that many people have visited every Farm Show since 1938, with the exception of the war years 1943-'46 when meetings, but no exhibits were held.

The popular annual event finally outgrew its early facilities, and in 1931 the new Farm Show Building was sufficiently completed to house that year's show. Additions came slowly over the years until the complex reached its present size We hope that further expansion and improvement, will be considered as indicated

One needed improvement that was very strongly indicated at last year's show was more effective ventilation to ease the dust and odor problems, particularly in the large arena.

Of an estimated 15 million persons who have attended the Pennsylvania Farm Show since 1917, only three now living are known to have attended all 49 shows to date. These three gentlemen are now all retired, but still living in the Camp Hill area. They will be special guests at this 50th anniversary show.

Highlights of the show over the years have been compiled by the Department of Agriculture into a 64-page historical booklet which will be placed on sale next week by the Farm Show Commission. A condensed version appears in the colorful 40-page Farm Show program book which may be obtained from the county agent's office or at the Farm Show Bldg.

★ ★ ★ ★

Farm Show Weather?

Farm Show weather over the years has attained such a fierce, and dependable, reputation that we now take it for granted. But at this writing the Farm Show opening is still a few days away; the sky is clear; the national weather map shows some snow over the Rocky Mountain areas, but there's no snow in sight for us for the next several days. Where is that rough, cold, white winter the predictors promised?

Looking back at last year's Farm Show Issue of L F., we said pretty much the same thing We suggested that the Farm Show carries its weather right along with it It did.

Only one thing is certain in this respect. We're going to have weather; whether or not it's good weather we'll be looking forward to seeing a lot of old friends at the Farm Show, and, hopefully, meeting some new ones

So see you at the Farm Show!

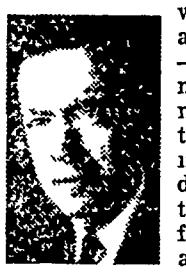
Why We Believe

Lesson for January 9, 1966

Background Scripture: Psalm 19 1-4 John 20 24 31 Romans 1 19-20, 10 5-17, II Timothy 3 14 17
Devotional Reading: Psalm 19.

WHY DO PEOPLE believe anything? Man is a believing animal; indeed he lives by his beliefs. But this is no place and there is no room for investigating beliefs in general. Otherwise we should have to inquire why men believe all sorts of things — that there is no life on the moon, that potatoes grow better if planted in the dark of the moon, that the moon affects the tides, and so on and so on. Our question is a shorter one Why do Christians believe as we do? Are our reasons good or bad or do we believe without any reasonable reason at all? Is there solid ground under our feet or is the Land of Faith — so to speak — only a marsh?



Religious beliefs are not like the beliefs of science The scientist takes the object he is examining into the laboratory and analyzes it But no worshipper would think of taking God into the laboratory and examining him! You can dissect frogs and you can see the spectrum of sunlight, but it is impossible in the same way to dissect the joy of faith or to chart the spectrum of the Light of the World. Further, religion, especially the religion of Christians, is in a class of beliefs of a peculiar and non-scientific (though far from nonsensical!) sort, namely all beliefs that involve **confidence,** as Christian faith does. Scientific belief asks for proof first, then belief will follow, but with anything involving confidence, belief has to come first, then evidence or proof follows. For instance, when you learn to swim, you have to believe that the water will hold you up, fat and clumsy though you may be. You can wait forever for proof, the only proof you will ever get is to believe it is true and then act on your belief. **You don't know it now, you have to live in faith for many years. Christian faith is like that; you find the evidence by acting on faith.**

Grounds for belief

Not that Christians have no good reasons for their confidence. But these grounds are better seen by a Christian than an outsider. We look at the universe in all its beauty and grandeur, and feel as a famed astronomer did, that the universe is more like a great thought than like a great machine. Such power, such splendor, such order, can only be the producht of an Intelligence and Power greater by far than the universe itself.

God's witnesses

There once lived an unbelieving man named Augustine. His mother was a Christian, but not his father and not he. His two great loves were beauty and intellectual power. He found neither in the church. But on his travels he came on a man — a bishop — whose sermons had the intellectual power and moral force Augustine had been looking for, and the worship service at his church had the beauty Augustine had always missed. To make a short story shorter, Augustine became a believer through the faith of Bishop Ambrose. It has usually been like that. Most Christians are such because of their contacts with other Christians. Every real Christian becomes a rock or reliance on whom others rest their faith. **Not that true belief is rubber-stamp or second hand! We come to personal faith through the belief of those we love and admire; but this is only the first stage in erecting faith that is personal and first-hand. The testimony of others becomes blended with the divine whisper within, that we are children of God. If you were God, what better reasons for belief in you could you give than those God in fact has given?**

Go To Church Sunday

Now Is The Time . . .

By Max Smith, Lancaster County Agent

To Attend Farm Show Meetings

There are many events at State Farm Show which opens at Harrisburg next Monday; many of them are interesting, entertaining, and satisfying However, there is great educational values to be harvested if progressive farmers will make an effort to include them in their long and tiresome days I refer to the many meetings of farm organizations and their educational programs These should be very beneficial and we'd urge all farmers to be present in order to obtain the latest information

SMITH

To Be Prepared

Weather conditions have left out any snowfall up until this time; however, we are of the belief that Mother Nature usually comes up with the average for the winter at one time or the other This means that we might expect some very heavy snowfalls in the remaining months of the winter These might mean temporary isolation or the loss of power, preparing for such emergency might save considerable suffering and loss of property and materials. We urge some attention to this possibility before it happens

To Prepare Brood Sows . . Just before sows move into the farrowing house, wash their udders with soap and warm water; then when the pigs get that first meal, it will be a clean one, free from worm eggs and other harmful bacteria. Good sanitation is very important.

To Use Caution with Moldy Corn . . . We don't recommend the feeding of moldy grain to any kind of livestock, but fattening hogs can utilize limited amounts of it with little ill effects. Moldy corn or any moldy feeds should not be fed to breeding swine because of danger of disrupting the reproductive cycle If some moldy corn is to be worked into the grain mixture for fattening hogs, then feed it free choice rather than mixing with good grains The hogs will eat only so much of the low quality grain, and this will usually not upset their digestive system. Be sure to provide other grain and proteins with the poor quality feed.

Thomas, Bixler, And Porter Are 4-H Corn And Tobacco Winners

Richard Thomas, Millersville R1, topped the recent 4-H tobacco show with his ribbon-winning filler leaf exhibit, and took the runner-up position in the wrapper contest

The grand champion wrapper title was won by Phillip Baxter of Marietta R1 and top corn honors went to Gary Porter of Washington Boro R1

Reserve champion tobacco filler leaf was won by Donald Thomas Dicks brother, with Jeffrey Witman of Mount Joy hanging the runnerup spot in the corn exhibit

Other placings were:

Wrapper Leaf — 3, Nancy Nestleroth, 4, Eric Stoner; 5, Richard Buckwalter

Filler Leaf — 3 Phillip Stehman, 4, Eric Stoner, 5, Leigh Walton.

Corn Exhibits — 3, Jesse Lee Balmer.

Tobacco record book scores were topped by Eric Stoner with 98 0, followed by Patricia Yuninger and Phillip Bixler, tied for second at 96 8; three entrants tied for third with a score of 96 0 — Gary Porter, Phillip Stehman, and Richard Thomas

Corn project record book scores showed the grand champion Gary Porter in first place with a score of 99 1 second Jesse Balmer with 98 6, third, Sherley Buckwalter, 98 0, fourth, Jeffrey Witman, 96 4 and fifth, Patricia Yuninger 94 3.

Both shows had fewer entries than the exhibit a year ago according to associate county agents Victor Plastow and Arnold Lueck All entries in the tobacco show will go to the 1966 Farm Show, while the corn entries may go if the exhibitors wish, the extensionmen said

Judges for the tobacco show were Paris Gruber and Richard Charles, Jr, both of the Bayuk Cigar Co, and tobacco broker Ben Mann

James Haldeman, Berks county agent, judged the 14-entry corn exhibit

(Continued from Page 1)

on results of a survey which showed that farms operating under a prescribed conservation plan will generally earn 20 percent more net income. "Seventy percent of the farmers in Lancaster County are not now taking advantage of this program, and are therefore passing up this potential increase in net return," Funk said.

Referring to the statement of County Commissioner Arthur Campbell, Jr, in which he said that 10,000 acres, 25 percent of all the county's agricultural land, will be lost to production by 1980, Funk said the conservation district will spearhead the move toward building a better county One way in which it will do that, Funk stated, will be through increased promotion of conservation at all levels; which will include joint meetings with township supervisors and the county planning commission, for the purpose of making the best possible use of our remaining agricultural land.

Director Aaron Stauffer told the associate directors that the District was asking for some of their time so they could enlist in the battle to conserve the county. He cited projected population figures for the year 2000. When the world population doubles, as the experts say it will, food production will have to double to keep place. "This can't be accomplished if we keep sending topsoil down stream," Stauffer said.

The group of associate directors was told that their help was urgently needed, and they responded enthusiastically to this challenge. Stauffer told them the District will select the "Outstanding Associate Director" and plans to send him to next year's State Conservation Convention.

County conservationist Wayne Maresch told the members that, generally, decisions are made for the moment, but the effects of decisions reach out into future generations. When a farmer decides to enroll in a conservation plan, he is helping himself and those future generations, Maresch said.

"The Soil Conservation District is the best example of people making decisions at local levels with state and federal assistance anywhere in the world today," Maresch told the conservationists.

Funk called on each of the associate directors to tell the group a little about how conservation was working for them, and asked each to add his ideas on promoting conservation to the evening's discussion. One important point brought out by several of these men was the need for teaching the principles of conservation to the young, preferably through the schools, 4-H groups, and others.

Four new agreements, totaling 459 acres, were presented for the directors approval.

FFA To Honor Parents Of Keystone Farmers

The Future Farmers of America during their State convention at the 1966 State Farm Show will present honorary awards to parents whose families contain three or more sons who have earned FFA's "Keystone Farmer" degree.

Most farm families deem it an honor to have even one son receive the Keystone Farmer degree, because it is the highest degree which can be awarded at the State level, cannot be bestowed upon more than one FFA boy in 50, and is earned for outstanding achievement in farming practices, leadership, and scholarship. To have three or more degree holders in the same family is rare, but three sets of parents so distinguished have been invited to be guests at the FFA convention January 12. Fathers in these families will receive the Honorary Keystone Farmer degree, and mothers will receive special certificates recognizing their cooperation in aiding their sons earn the coveted title.

One set of parents will have the even more unusual distinction of seeing their fourth son receive the degree at the 1966 Farm Show. Mr. and Mrs. J. Rex Haagen of Clymer R2, Indiana County, are parents of James E. Haagen who on January 12 receives the degree, joining his Keystone Farmer brothers, John, Edward and Herbert, who received the degree in 1961, 1962 and 1965. The Haagen parents will be introduced but not receive the degree, which was awarded to them last year when their third son, Herbert, earned the degree.

Another set of parents, Mr. and Mrs. Clair E. Hartman of Hellam R1, York County, will have the rare experience of seeing two sons win the degree on the same day. When Robert and Richard Hartman become Keystone Farmers on January 12, they will make the Hartman family another with four Keystone Farmer sons, Robert's and Richard's brother Donald having received the degree in 1953 and brother, Larry, in 1959.

The third pair to receive the parent's award will be Mr. and Mrs. Lester Longenecker of Williamsburg, Blair County. Their son, Harold receives the Keystone Farmer degree January 12. Their son, Max, received the degree in 1960 and another son, Dale, in 1961.

Vo-ag Teachers

(Continued from Page 1)

asked to construct a premium list within his chapter's budget, and send it to Elvin Hess, Elizabethtown vo-ag teacher, by January 24.

It was announced that two new FFA Foundation medals will be awarded to outstanding members; one in horticulture and the other in home improvement projects.

Area supervisor T. M. Malin announced that all FFA project books for 1965 must be turned in by February 4. These will be evaluated February 8-11. He also said that all livestock entries for the Farm Show must be at Harrisburg by 6 p.m., Saturday the 8th of January.

The previous confusion over the allocation of $150 for the County Star Farmer award was clarified with the stipulation that the money was to finance a trip to the National FFA Convention at Kansas City.

The new county FFA officers will be installed at a meeting on January 24 at Warwick Union High School, Lititz

The next teachers meeting was set for February 1 at Lampeter-Strasburg High School.

Brubaker

(Continued from Page 1)

na Crop Reporting Service. He has served as a reporter for the Service for 51 years, and will receive special recognition at the Farm Show meeting on January 13.

Brubaker has long been an agricultural leader in Lancaster County. He was a former director of the Lancaster County Extension Service, a founder of the Lancaster Poultry Exchange, serving several terms as president of that organization, and he is presently co-chairman of the Lancaster County Farm & Home Foundation fund drive.

He and his son Aaron operate a 140-acre poultry and steer farm which has been in the Brubaker family since 1717. They also farm an additional 420 rented acres in the area.

to gain weight rapidly and efficiently.

The new grades were proposed by C&MS' Livestock Division June 24, 1965, and comments were received on the proposed standards until Sept. 24. Based on these comments, a few minor revisions were made in the proposed standards which will add to the clarity and uniformity in interpretation of the standards.

For the Farm Wife and Family

By Mrs. Richard C. Spence, Food Editor

Old Favorites Served With A Flair

SPENCE

Hamburgers and pork chops are always popular with the family. But why serve them the same old way everytime Why not add that extra something that turns everyday meals into special occasions. No extra work is involved, just a dash of imagination and some new, appealing recipes. For a change of pace, some day soon, try Baked Hamburgers in Cheese Sauce. Place hamburger patties in a baking dish, top with onion slices and then pour on a zesty cheese sauce. Bake in the oven for about half an hour; serve over buttered buns, with a crisp green salad or crunchy relishes and a beverage. It's just as easy as it sounds and twice as delicious.

BAKED HAMBURGERS IN CHEESE SAUCE

1 pound ground beef
1 teaspoon salt
⅛ teaspoon pepper
6 slices onion
1 can (10½ ounces) condensed cream of celery soup
1 teaspoon dry mustard
½ teaspoon Worcestershire sauce
¼ cup chili sauce
2 cups (8 ounces) shredded Cheddar cheese
3 sandwich buns

Combine ground beef, salt and pepper lightly but thoroughly. Shape into 6 patties Place in a baking dish, 9 x 13 inches. Top each patty with onion slice In a 2-quart saucepan mix together soup, mustard, Worcestershire and chili sauces; heat. Add cheese and continue to heat stirring constantly until cheese is melted. (Do not boil). Pour sauce over hamburgers in baking dish. In a preheated 350 degree oven, bake for 30 minutes. Serve each patty on half of a toasted, buttered bun. Spoon any remaining sauce. Serves six.

* * *

Orange Baked Pork Chop Dinner is an easy-to-do meal because three of the items are baked together in the oven. Your menu will go like this: Orange Baked Pork Chops, Fluffy Rice, sliced buttered beets or carrots, fruit and cottage cheese salad, Bread 'N Butter Pudding.

ORANGE BAKED PORK CHOP DINNER

¾ cup crushed corn flakes
1 teaspoon salt
Dash of pepper
4 pork shoulder chops, ½ inch thick
1 egg, well beaten
¼ cup (½ stick) butter
¼ teaspoon orange rind
½ cup orange juice

Mix together corn flakes, salt and pepper. Dip pork chops in egg, then in corn flake mixture to thoroughly coat. In skillet, melt butter; brown pork chops slowly on both sides. Place chops in 2-quart baking dish. Combine orange rind and juice and pour over chops. Cover and bake 20 minutes in a preheated 350 degree oven Uncover and bake 10 additional minutes Serves four.

BAKED RICE

1 cup regular rice, uncooked
1 teaspoon salt
2 tablespoons butter
2 cups hot water

In a 2-quart baking dish combine rice, salt, butter and hot water. Cover and bake in a preheated 350 degree oven for 30 minutes or until water is absorbed and rice is tender. Serves four.

BREAD 'N BUTTER PUDDING

2 cups soft bread cubes with crusts
¼ cup (½ stick) butter, melted
3 eggs
2/3 cup milk
½ cup sugar
⅓ cup raisins
Vanilla ice cream

Measure bread cubes into bowl; pour over melted butter; set aside. In a 4-cup casserole dish, beat eggs until foamy then add milk, sugar and raisins. Stir in bread cubes, mixing well with other ingredients. Bake for 40 minutes in a preheated 350 degree oven. Serve while warm topped with scoops of vanilla ice cream. Serves 5 or 6.

* * *

If you like a little Oriental flavor with your pork chops try making them this way.

HONG KONG PORK CHOPS

8 loin pork chops
Salt
2 tablespoons oil
1 medium onion, thinly sliced
¼ cup soy sauce
2 tablespoons lemon juice
1 4-ounce can sliced mushrooms, undrained
½ teaspoon ground ginger
¼ teaspoon garlic powder
½ green pepper, chopped
½ can (4-ounces) water chestnuts, sliced
1 lemon, unpeeled, sliced into half cartwheels
Steamed rice

Sprinkle chops with salt; brown in oil in heavy skillet. Drain off excess fat. Cover with onion slices. Combine soy sauce, lemon juice, mushrooms and liquid, ginger and garlic powder. Pour over chops. Cover skillet and bake at 350 degrees for 45 minutes. Add green pepper, chestnuts and lemon slices. Bake an additional 15 to 20 minutes. Serve with steamed rice.

CROP NEWS

HARRISBURG — Production of fresh market and processing vegetables and strawberries in the Keystone State in 1965 totaled 293,-300 tons, an increase of 7 percent over the previous year, says the Pennsylvania Crop Reporting Service.

Crops were harvested from 75,510 acres, 4 percent more than in 1964.

Tomatoes produced a record high yield per acre, 14.2 tons compared to 13.1 tons in 1964. Significant increases were recorded in total production of snap beans, peas, tomatoes and cabbage. The strawberry crop amounted to 7,530 tons, down 220 tons from the previous year.

POTATOES

Stocks of potatoes held by Pennsylvania growers, dealers and chippers on December 1 were the largest in three years.

The total, 4.6 million hundredweight, was 19 percent higher than a year earlier, but 2 percent below the 1959-63 average. It represented approximately two-thirds of the state's 1965 fall potato crop.

Fall production in Pennsylvania totaled 6.9 million cwt., up 11 percent from the previous year. The crop, benefitted by late season rain, was of excellent quality except in a few scattered areas.

CROP PRICES

Prices received for farm products were up 2.5 percent over the November average, and 7 percent higher than prices received in December 1964.

The gains reflect increasing demand for Pennsylvania farm products, both at home and in foreign countries, and the spread of the Commonwealth's growing economy to producer levels, says the Crop Reporting Service.

The hog market was the real sparkplug, with prices rising $3.40 per hundredweight in a month to $27.60. It was the highest December hog price on record in the state, and the best price received since September 1948. Along with hog prices, other livestock quotations advanced, with steers and heifers up $1.20 from a month earlier. Eggs were up three cents a dozen.

All crop prices advanced, with the exception of rye and potatoes which were the same as in mid-November. Corn was up eight cents a bushel, and wheat gained four cents.

Alfalfa hay rose $1.00 to $39.50 a ton, 50 cents higher than a year ago. The increase reflects the effect of early season drought that reduced production in many areas and forced livestock farmers to use early cuttings to supplement short feed supplies.

Only milk, farm chickens and broilers showed price declines.

Prices paid by farmers for commodities and services also rose, up 3.5 percent in the nation over those of December 1964.

● Golden Anniversary

(Continued from Page 1)

including a vast array of farm machinery, total 224. Some machinery exhibits will feature new models which will be unveiled for the first time at this show.

Competitive exhibits will number nearly 11,000 items in field, fruit and vegetable crops, livestock, poultry, home economics and displays from public schools. Show director Horace Mann estimated all of the exhibits will have a total intrinsic value of $10 million. Premiums will total $64,600, a new all-time high, Mann said.

This year's exposition has been described by Governor Scranton as a "show window for our multi-billion dollar agricultural industry."

Worth Knowing About Buying Nuts

When buying unshelled nuts, select those without scars, cracks, or holes. The kernel should not rattle

It will take about two pounds of unshelled nuts to give you one pound or about four cups of nutmeats Weight may vary with type, condition, and size of the nut.

Nuts in the shell generally are a better buy than shelled nuts, but the shelled are more convenient to use

This year for the first time, you may find packages of mixed nuts marked with a grade label, such as U S. Extra Fancy or U. S. Fancy. Grades mean that the mixed nuts are reasonably mixed with at least ten percent but no more than forty percent of each kind in the mixture.

The oily nature of nuts causes them to become rancid and stale when exposed to air, moisture, and warmth Unshelled nuts remain fresh longer than nutmeats, but do not keep them at room temperature more than a few weeks

Keep nutmeats in tightly sealed containers or in moisture and vapor-proof wrappings and store in the refrigerator or freezer to prolong their freshness Large nutmeats stay fresh longer than chopped or ground ones.

Do You Know That . . .

Small throw rugs are the cause of many falls in the home If you must use throw rugs, be sure they are coated on the back with a nonskid material or put a nonskid pad under each rug. Avoid using small throw rugs in areas of heavy foot traffic.

A "discard box" helps to relieve the crush of clothing in closets between seasons. You can remove garments no longer useful from their storage places as you finish wearing them After cleaning or laundering, put the garments in a large box When filled, you can donate the box to charity or a clothing drive.

A manufacturer's brand is a nationally advertised food brand found in many types of retail outlets A retailer's brand is his own private brand and found only on food items in his store Although both brands are advertised, a manufacturer's brand is likely to be advertised more often throughout the country

Among the rewards of being a better shopper are a balanced budget, more quality for the money, and better living for the family.

Frey Herd And Stoltzfus Cow Top Nov. DHIA

The Red Rose Dairy Herd Improvement Association, in announcing cow records for November, reported that a registered Holstein cow owned by J Mowery Frey Jr., Lancaster R7, completed the highest 305 day lactation Johanna produced 26,506 lbs of milk, 1,161 lbs of butterfat with a 4 4% test. Second high lactation was completed by a Holstein cow owned by C Robert Gaeider, Columbia R2 Sandra produced 22,111 lbs. of milk, 889 lbs of butterfat with a 4 0% test in 305 days.

The herd of Daniel L. Stoltzfus, Honey Brook R1, had the highest monthly butterfat average. This herd of 22 0 Holstein cows averaged 1 635 lbs of milk, 65 lbs. of butterfat with a 4.0% test. The herd of Willis M. Martin, New Holland R2, placed second This herd of 19 9 registered and grade Holstein cows averaged 1,548 lbs. of milk, 63 lbs of butterfat with a 4 1% test

Pelleted Herbicides Can Improve Forests

Pelleted and granular herbicides, a relatively new method of controlling "weed" trees and brush, can be used effectively to improve unproductive forests and other land areas, declared a Pennsylvania State University scientist this week at the 20th annual Northeastern Weed Control Conference in New York, N. Y.

Robert D. Shipman, associate professor of forestry at Penn State, said urea-compounded herbicides are being used effectively to kill undesirable brush and trees in fields and forests, to improve watersheds and wildlife habitats, to control brush along highway and utility rights-of-way, and in forage and pasture renovation.

Chief advantages of pelleted herbicides are their nonvaporous nature, their slight soil and plant residues, and their low toxicity to man, animals and wildlife, Shipman stated Where conservation of natural beauty is vital, pelleted herbicides can be used to remove undesirable plants gradually in the Fall, allowing desirable species to develop the following Spring, he added.

Pelleted herbicides appear to be selective of the woody plants they will kill, when applied at prescribed rates on specific soil types, he announced Red and white pine seedlings generally have been unharmed, he said, in areas where they were growing under hardwood trees that were killed by spreading pellets over the forest floor.

The Penn State forestry scientist pointed out that pelleted herbicides can be easily and rapidly applied by hand or by aircraft directly to the soil surface. Pellets can be strewn over the area where plants are to be killed, can be applied in a grid or a band, or in spot treatments that can be tailored to the approximate level of kill desired.

Pellets or granules need no costly equipment for applying, Shipman reported, and can be used to control brush in areas considered too expensive and inaccessible to spray with heavy equipment or with liquid herbicides. These advantages bring the relatively high cost of pelleted herbicides on line with costs of liquid types, he suggested

Dog License Time Is Here, Officials Warn

Harrisburg — The State Agriculture Department recently cautioned dog owners that 1965 dog licenses expire on January 15th, and that new licenses must be obtained "on or before" that date.

Licenses may be obtained at county treasurers' offices. The fee is $1 for a male or spayed female and $2 for any other female dog, plus 20 cents to the issuing officer or agency.

The 1966 licenses are being issued under the new Pennsylvania dog law that provides more protection for dogs and dog owners than in the past.

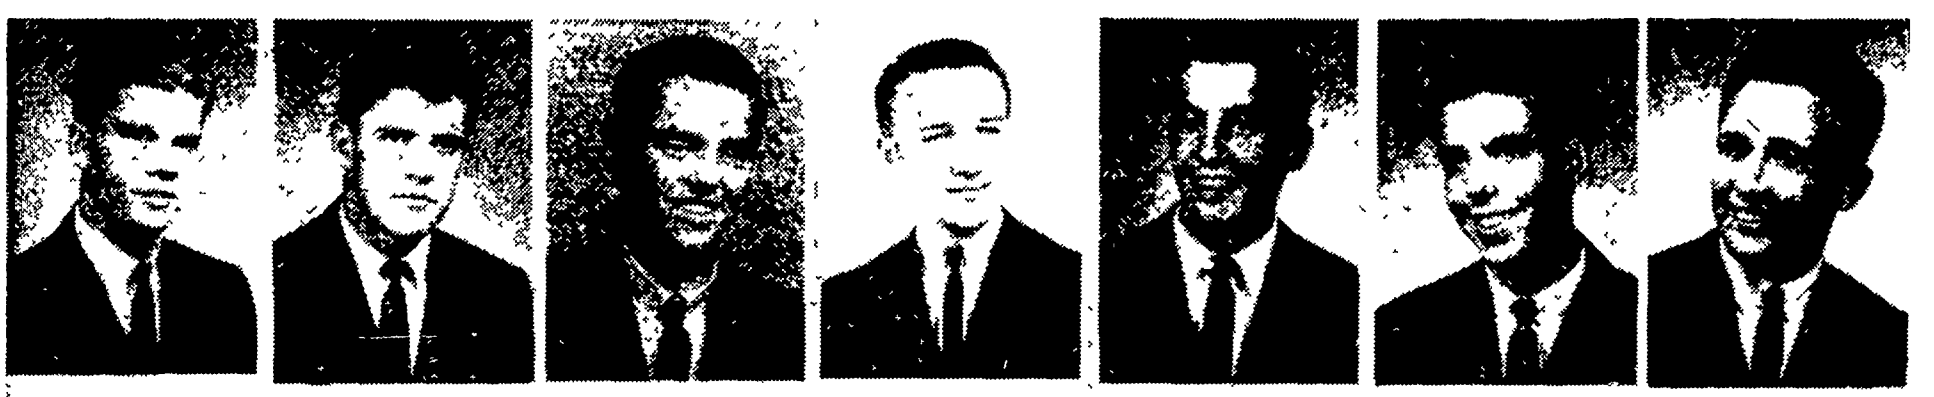
SECOND SECTION

Keystone Farmer Degree Winners From County



KEYSTONE DEGREE CANDIDATES are left to right: (top row), Glenn Weber, George Zimmerman, Scott Shoemaker, Clifford Bollinger, Richard Smith, William Hollinger, David Erb; (second row), Roy Bowman, Gary Martin, Sanford Gehman, Thomas Zartman, Fred Hess, Marlin Groff, Robert Meck; (third row), Ronald Ulrich, William Houser, Leroy Musser, Dale Herr, James Musser, Benjamin Nolt, Jesse Miller; (fourth row), Donald Gruber, John Hess, Jay Herr, Earl Wenger, Larry Breneman, Barry Kurtz, and Eugene Risser.

Twenty-Eight Lancaster County Future Farmers Will Receive Keystone Award

Twenty-eight Future Farmers of America from Lancaster County will receive the coveted Keystone Farmer Degree next Wednesday at the FFA midwinter convention to be held in the Forum of the Education Building, Harrisburg.

The Keystone award is the honor that can be bestowed upon an FFA member at the State level. Recipients of this degree are limited to two percent of the total FFA State membership.

Following is a short synopsis of each of these outstanding boys.

GLENN S. WEBER

Recently named the Star Farmer of Region II, Glenn will be in competition next Wednesday with winners from the other four regions in the state for the title of State Star Farmer He is the 17-year-old son of Mr. and Mrs. Andrew Weber of Mohnton R2, and is a senior at Garden Spot High School.

Glenn has demonstrated his leadership qualities as president of the Lancaster County FFA Chapter, president of his school chapter, and other local chapter offices and activities His farming program includes broilers, corn and dairy. He is presently operating the home farm on a partnership with his father.

* * * *

ROY W. BOWMAN

Roy is the 17-year-old son of Mr and Mrs. Aaron Bowman, New Holland R1. He is a member of the Grassland FFA Chapter and has held the offices of secretary and sentinel.

Roy's farming program includes tobacco, corn, and breeding swine multiple farrowing operation.

* * * *

SANFORD R. GEHMAN

The vice-president of Grassland FFA Chapter, Sanford is the 18-year-old son of Mr. and Mrs. Titus Gehman, Mohnton R2. He has also

served his local chapter as 2nd treasurer.

Santord has had poultry and agri-business work experience as part of his farming program.

* * * *

M. DALE HERR

Dale is 18 years old and is a senior at Garden Spot High School. He is the son of Mr. and Mrs. Melvin Herr of New Holland R2. He is presently his chapter delegate to County FFA Chapter and is 2nd secretary in his local chapter.

Dale was one of five boys in competition for this year's County Star Farmer award.

His farming program includes swine breeding and fattening projects, corn, dairy and tobacco.

* * * *

LEROY L. MUSSER

Leroy is the 18-year-old son of Mr. and Mrs. Paul Musser, Mohnton R2. He is presently parliamentarian of the Grassland FFA Chapter.

His farming program featured agribusiness work experience, plus projects in Swine fattening and breeding and corn.

* * *

JAMES W. MUSSER

James is 17 years old a senior at Garden Spot High School and the son of Mr. and Mrs. Jacob Musser of East Earl R1.

He is presently his chapter delegate to the County FFA Chapter, and is chaplain of the Grassland Chapter.

Projects he has developed in his farming program include laying hens, broilers, veal calves, and swine.

GEORGE F. ZIMMERMAN

George is the 18-year-old son of Mr. and Mrs. Noah H. Zimmerman of East Earl R1, and is a senior at Garden Spot High School.

He is presently secretary in the Grassland FFA Chapter.

George's farming program includes corn and tobacco projects, and agribusiness work experience.

* * * *

JESSE MILLER

Jesse is 17 years of age, the son of Mr. and Mrs. Wilbur E. Miller of Manheim R3, and held the offices of sentinel and secretary in the Manheim FFA Chapter.

He received the Red Rose Degree in 1964. His farming program consists of swine, dairy, sheep and crops. In 1964, he rented a small farm on shares, and raised tobacco and corn.

His activities include parliamentary procedure, showing livestock, public speaking, and singing in the state FFA chorus for two years. He placed first in the county in livestock judging at Lampeter Fair in 1965.

Jesse plans to stay on the home farm with his father following graduation in 1966.

* * * *

BENJAMIN NOLT

Ben as president of the Manheim FFA Chapter. He is the 18-year-old son of Mr. and Mrs. Lester Nolt of Manheim R1, and received the Red Rose Degree in 1965. He placed first in poultry in the state project book contest in both 1964 and 1965, and participated in state FFA Week judging in 1965.

Ben's farming program includes beef, poultry and crop projects and hopes to go into beef and poultry farming following graduation next June.

* * * *

GARY MARTIN

Gary is the 17-year-old son of Mr. and Mrs. Andrew H. Martin of Pequea R1.

He has held the offices of vice-president and reporter in the Manor FFA Chapter, and is a senior at Penn Manor High School.

His farming program includes projects in corn and tomatoes.

* * * *

JAY D. HERR

Jay is 17 years old and is a senior at Penn Manor High School. His parents are Mr. and Mrs. Henry H. Herr of Lancaster R6.

He has held the offices of president and sentinel in the Manor FFA Chapter.

His farming program includes corn and tobacco projects.

* * * *

JOHN HESS

John is the 17-year-old son of Mr. and Mrs. David B. Hess of Lancaster R6, and is a senior at Penn Manor High School.

He served as vice-president of the Manor FFA Chapter in 1964-65, and in 1965-66.

His farming program featured projects in corn, dairy and tobacco.

* * * *

DAVID ERB

A senior at Penn Manor High School, David is 17 years old, and the son of Mr. and Mrs. Daniel S. Erb, Columbia R2.

In the Manor FFA Chapter, he has held the offices of treasurer, reporter, and president. He was sentinel in the County Chapter in 1964-65.

He has farm projects in tobacco, dairy, and corn.

* * *

MARLIN H. GROFF

Marlin is the 17-year-old son of Mr. and Mrs. Melvin S. Groff of Washington Boro R1, and is a senior at Penn Manor High School.

He has served as secretary of the Manor FFA Chapter.

His farming interests are corn, tobacco, hay, hogs, and steers.

(Continued on Page 15)

A new OLIVER in a new class—certified 53-horsepower 1550

Full Power for Your Money. Factory-tested and certified at 53 observed pto horsepower. Here's your positive assurance that the performance of the 1550 you buy will equal its rating.

Another power choice—Row Crop, low-profile Utility or Wheatland—6-cylinder gas, diesel or LP-gas—12 forward speeds with on-the-go Hydra-Power shifting—3-point hitch with draft-sensitive lower links—Hydra-lectric depth control on the move—weight-indicator seat and Tilt-o-Scope power steering.

Keystone Awards

(Continued from Page 14)

J. WILLIAM HOUSER

Bill graduated last June from Lampeter-Strasburg High School. He is 18 years old, and the son of Mr. and Mrs. J. Wilbur Houser of Lampeter.

His activities include 4-H and FFA work. He has been president of the Garden Spot 4-H Community Club, and assistant treasurer of the Red Rose Beef & Lamb Club; assistant secretary and chaplain of the Garden Spot FFA Chapter.

His present farming program includes projects in potatoes, corn and sweet corn.

* * * *

LARRY E. BRENEMAN

Larry is a senior at Lampeter-Strasburg High School, and is the 19-year-old son of Mr. and Mrs. C. Henry Breneman, Strasburg R1.

He has served as president of the Garden Spot FFA Chapter, and as a member of the parliamentary procedure team. He represented his local chapter as delegate to the county chapter, and the latter as delegate to the state FFA Convention in 1965.

He participated in the senior play in 1965, and served as president of the Guernsey 4-H Club in 1965.

His farming program consisted of four dairy cows, three dairy heifers, two dairy calves, plus his father's herd of Guernsey cows, and four acres of corn.

* * * *

ROBERT S. MECK

Bob is the son of Mr. and Mrs. Paul S Meck of Willow Street R1, and is a member of the senior class of Lampeter-Strasburg High School. He is 17 years old.

He has held the office of reporter in the Garden Spot FFA Chapter, played in the state FFA Band, and was a member of the chapter parliamentary procedure team.

His present farming program consists of two acres of tobacco, two acres of corn, and 24 fattening hogs.

* * * *

SCOTT E. SHOEMAKER

Scott is a 1965 graduate of Solanco High School, and is the son of Mr. and Mrs. Kenneth Shoemaker, Kirkwood R1.

He is currently working on the home farm where the chief enterprises are Guernsey cattle and corn.

He has served as sentinel of the Solanco FFA Chapter, and as a member of the chapter parliamentary procedure team. He also played varsity baseball during his four high school years.

Scott's farming program centered around his purebred dairy animals, but included projects in beef, swine, and corn.

He has also been an active member, and served as an officer, of the Kirkwood 4-H Dairy Club. He is a member of the Red Rose 4-H Baby Beef & Lamb Club, and has exhibited steers at the annual steer roundup at the Lancaster Stock Yards.

* * * *

RONALD L. ULRICH

Ronald, the son of Mr. and Mrs. Harry L. Ulrich of Peach Bottom R2, is a 1965 graduate of Solanco High School. He presently works full time for a portable feed mill operator, and helps on the home farm.

He has held the offices of treasurer and assistant secretary in the Solanco FFA Chapter, and has been a member of the FFA State Band. He was a member of the High School band for four years, and currently plays with the Lancaster Malta Band.

His farming program centers around his Jersey dairy animals, and is supplemented by projects in swine and corn.

* * * *

WILLIAM R. HOLLINGER

Bill is a senior at Solanco High School, and is the son of Mr. and Mrs. William T. Hollinger, Drumore R1.

He serves his local chapter as sentinel this year; last year he was assistant treasurer. During the past two years he has been a member of the chapter's parliamentary procedure team.

Bill has been active in the show ring, both at the Solanco Fair and in the FFA District Dairy Shows.

He placed second in last year's Solanco Rural Youth Contest, and first this year.

He has also been active in 4-H beef showmanship, participating in the county roundup and in The Pennsylvania Livestock Exposition.

His farming program includes farm work experience, dairy, corn, and beef projects.

Following graduation, Bill plans to attend the Delaware Valley College of Agriculture and Science, wher he will major in livestock.

* * * *

RICHARD A. SMITH

Dick is a senior at Solanco High School, and is the son of Mr. and Mrs. Harry B Smith of New Providence R1.

He is president of the Solanco FFA Chapter, and is chapter delegate to the county chapter. He is also a member of the Solanco FFA parliamentary procedure team. As a member of the State FFA Chorus, he participated in Activities Week at Penn State in 1961.

Dick placed second in the FFA Land Use and Management Contest in the Lancaster-York district meet, fourth in the state contest, and second in the State FFA-4-H contest during the National Grassland Field Days at Hershey.

He is currently vice-president of the senior class, and is a member of the varsity cross-country team.

His farming program includes dairy, pullets, swine and corn.

Following graduation, Dick plans to major in agricultural education at Penn State University.

* * * *

J. EARL WENGER

Earl is the son of Mr. and Mrs. Paul Wenger of Quarryville R1, and is a senior at Solanco High School.

He is secretary of the Solanco FFA Chapter, and is a member of the parliamentary procedure team.

He has been active in showing dairy animals in the Solanco Fair and the Southeastern Junior Dairy Show. Last year he represented Solanco's junior membership at the Inter-State Milk Producers annual meeting He also took first place in the Youth Division of the Ephrata Fair Tractor Driving Contest.

He is currently president of the Southern Lancaster County 4-H Holstein Club, and has been active in 4-H

Penn Manor FFA Window Exhibit At Farm Show

The prize-winning window exhibit on "Future Farmers Signal Safety" constructed by the Manor Chapter of Future Farmers of America, will be displayed at the Farm Show, and will compete with eight other such FFA displays. The display was built under the direction of Penn Manor High School vocational agriculture teachers Garland Gingerich and Richard Hackenberger.

The nine chapters, chosen from preliminary plans submitted to committees representing areas vocational agriculture supervisors, will compete for the biggest cash awards to be made to the vocational agriculture school division of the Farm Show. The Farm Show Commission is offering $455 in prizes, top place winning $75 and other prizes ranging from $65 down to $40. The total in prospective awards, however, rises to $605 because the Pennsylvania Electric Association will offer $50 and $25 to the first and second ranked exhibits best displaying farm uses of electricity and the Pennsylvania Association of Soil and Water Conservation District Directors is offering similar prizes for the two exhibits best exemplifying proper use and management of soil and water resources.

1966 Farm Show Schedule

(Continued from Page 13)

tion Meeting, Room B, Main Show Building.

MONDAY EVENING, JANUARY 10

Banquets

6:00—Society of Farm Women—Banquet—Scottish Rite Cathedral, 2701 North Third Street.
6:30—State Beekeepers' Association, Banquet, Colonial Park United Church of Christ, 5000 Devonshire Road, 3 miles east of Harrisburg.

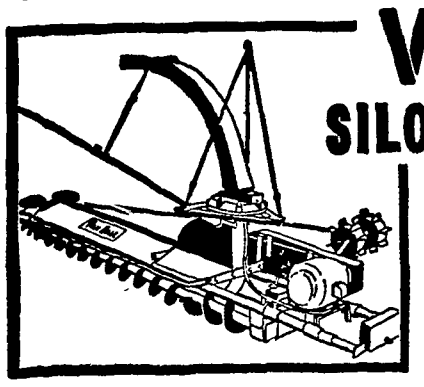
Complete automatic feeding for DAIRY COWS and CATTLE!

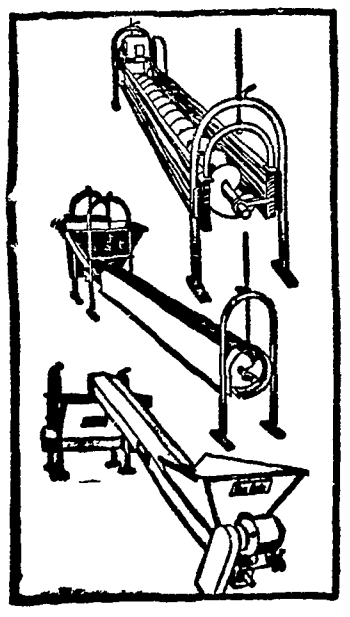
VanDale SILO UNLOADERS



Double augers deliver more silage per minute even when silage is deeply frozen . . . and at a lower operating cost. Patented V-paddle impellers *throw* . . . not blow . . . silage down chute. Adjustable drive hubs give positive traction in all types of silage.

Three-point suspension keeps unloader level at all times.

Plus a complete line of bunk feeders to meet your exact needs



Straight-out Auger Feeder

With VanDale units you can custom build the bunk feeding set-up to fit your needs. Drive section includes hopper, drive assembly and 10', high capacity 9" auger. Additional auger sections are in 10' units and are easily coupled.

Feed-R-Flo Bunk Feeder

The new, all-metal complete feeder. High capacity 9" auger rotates within tube. Gives all-weather protection, even feed distribution, and lower operating cost.

Conveyor Trough

An important link in automatic feeding. Positioned below silo chute, the VanDale conveyor trough carries the silage to the bunk feeder. Primary section includes hopper, drive assembly, and 10', 9" auger. Additional 10' auger sections may be added.

See us for modern automatic feeding equipment

You Get Efficient Egg Production

when you feed FUL-O-PEP

It takes only a small increase in dozen eggs per ton of feed to make a big increase in profit margin.

For example, suppose you are now producing a dozen eggs on 4 lbs. of feed. If you can save just .3 lb. feed per dozen, you can get an extra 40 dozen eggs from every ton of feed. Top feeding efficiency gives you those extra dozens that mean extra profits.

Ful-O-Pep Egg Feeds are noted for their high efficiency. That's why you'll find some of the nation's most efficient feeders wherever Ful-O-Pep is fed.

dairy programs for several years.

Earl was one of five outstanding boys considered for the title of County Star Farmer in 1965.

His farming program centers around his purebred Holstein dairy animals, corn, and alfalfa hay.

* * * *

R. EUGENE RISSER

Eighteen year old Eugene Risser is the son of Mr. and Mrs. Robert B. Risser, Lititz R1. He is a 1965 graduate of Warwick Union High School, where he studied vocational agriculture for four years.

Gene has been active in local, county, and state FFA activities. He served the Warwick Chapter two years as reporter; performed many committee assignments; and attended FFA Week at Penn State as a dairy judge on two occasions. He has also been active in varsity sports, student body activities, and was in the National Honor Society.

His farming program concentrated on swine feeding and tobacco projects. He is now furthering his education in the College of Agriculture at Penn State University.

* * * *

FRED E. HESS

Fred is the 18-year-old son of Mr. and Mrs. Arthur S. Hess of Leola R1. He is a 1965 graduate of Warwick Union High School. He was recipient of the Outstanding Senior Agricultural Award presented by the Society of Farm Women During his high school days, he was active in FFA, varsity sports, and student body activities. He has served as president, vice-president, and sentinel of the Warwick FFA Chapter, and as sentinel of the County Chapter.

His farming program has centered around the feeding of swine and he has shown some of his market hogs at the County FFA Swine Show Field corn was added to his program this past year. Fred is presently employed by Hess Brothers Apple Packaging Co. of Leola, and plans to become established in livestock farming in the future.

* * * *

DONALD GRUBER

Donald is a 1965 graduate of Elizabethtown High School, and is presently working on his father's farm. He owns two purebred Holstein cows, one of which he won in the Elizabethtown Calf Chain.

He has been active in FFA duties, having served as secretary and as treasurer of his local chapter. He is presently treasurer of the County Chapter.

As part of his farming program, Donald farmed three-quarters of an acre of tobacco, and kept records on his father's dairy herd.

* * * *

BARRY KURTZ

Barry is a senior at Elizabethtown High School. In his spare time he works on the home farm, and helps in his father's Agway store.

He has served his local FFA chapter as secretary for two years, and has been chairman of planning and scrap drive committees. He also sings in the school chorus, and is active in 4-H work.

Barry owns several purebred Holstein heifers, and also raises a flock of 150 turkeys each year. Last year he and his brother farmed 60 acres, and plan to work another farm this year.

CLIFFORD BOLLINGER

Cliff is a senior at Ephrata High School and is the son of Mr. and Mrs. Abram Bollinger of Lititz R4.

He has been very active in FFA duties having served his local chapter as vice-president and president. On the county level, he is currently corresponding secretary, and was voted County Star Farmer for 1965.

He has served as a member of the state FFA dairy judging team, and represented Pennsylvania at Waterloo, Iowa. At the junior dairy show, he had the junior champion Holstein. He also had the grand champion FFA tobacco entry at the Farm Show.

Cliff's farming program includes six registered Holsteins, six steers, 12 sheep, one acre of tobacco, two acres of corn, and market hogs.

* * * *

THOMAS ZARTMAN

Tom is a senior at Ephrata High School, and is the son of Mr. and Mrs. Ira Zartman, Ephrata R1.

He was one of five boys who were candidates for the County Star Farmer award in 1965, and has been an active exhibitor of steers and market hogs at state and local shows.

Tom is presently reporter for the County FFA Chapter, and vice-president of the Cloister Chapter. In meat judging, he topped the Lancaster-York FFA district show, and was a silver medal winner at the state contest.

His farming program centers around nine sows and 65 market hogs, and includes steers, corn, barley, hay, and capons.

LOTS OF BURGLARIES

NEW YORK — Noting that a burglary occurs every 46 seconds in the United States, the Insurance Information Institute says many of these could be avoided if homeowners would lock their windows and doors and take a few other simple precautions.

FFA Recognizes Runners-Up-To Star Farmers

The Pennsylvania Association of the Future Farmers of America recently announced that at the State Farm Show recognition will be given to boys who were runners-up for the FFA's five awards as Regional Star Farmers.

At the FFA Farm Show convention on January 12, when approximately 200 boys will be advanced to the Keystone Farmer degree for excellence in agriculture, scholarship, and leadership, the highest ranking Keystone Farmer in each of the five regions will be designated as Regional Star Farmer. Four of these outstanding young farmers will receive $75 each from the National FFA Foundation, Inc.; the fifth, whose identity will not be disclosed until all five have been presented to the convention, will be designated State Star Farmer and receive an award of $200.

This year an award will be made also to the boys who ranked second and third in each region, sometimes missing the Regional Star Farmer title by a mere fraction of a point. This system, which enables the Future Farmers' organization to recognize 15 outstanding members instead of only five, awards $50 to the new Keystone Farmer who placed second in each region and $40 to the lad who scored third.

SOUTHEASTERN REGIONAL (12 counties) winners are: Regional Star Farmer, $75, Glenn S. Weber, 17, of Mohnton R2, Lancaster County, a senior at Garden Spot High School; second, $50, Duane Gross, 17, Myerstown R3, Lebanon County, a senior at Northern Lebanon High School; third, $40, Kenneth I. Sellers, 17, Lebanon R4, a senior at Annville-Cleona High School.

All of the high-ranking boys are strong in leadership, serving in a large number of school, chapter, or community activities. Together, the regional winners held 39 FFA offices, nine having been president of their chapter and two president of their area FFA organization. Most of them have leading roles in one or more organizations in their church or Sunday school.

To win the Keystone Farmer degree, an FFA boy is required to have invested at least $500 which he earned from his farming program, but the 15 high scoring boys have net worths ranging from $3,000 to more than $33,000. Three of the winners are married and one is a father.

Past Farm Show FFA Champions Are Rematched

A contest of champions confronts judges when they attempt to choose the best animals in the Future Farmers of America division of the 1966 State Farm Show's dairy cattle exhibit.

Forty-one purebred cows and heifers have been entered by 33 FFA exhibitors but ten of the 33 have accumulated a total of 23 championship awards for their entries in recent State Farm Shows and State Junior Dairy Shows. The champions of yesteryear will not necessarily be the competing entries in the 1966 show, for some of the animals have passed the four-year limit on age for entries in the FFA dairy show, but all have been entered by FFA boys who have established reputations for quality herds

The FFA entries will be judged in separate vocational classes open to any Vo-Ag student who has purebred heifers and cows in his vocational agriculture program but so confident are their FFA owners of the animals quality that 35 of the 41 entries have been entered in open classes, too where they will compete with commercial breeders' animals

All five dairy breeds most common in Pennsylvania will be represented in the FFA competition, but Holsteins predominate, followed by Guernseys The Farm Show Commission is offering five prizes, ranging downward from $10 to $4 in each of three age groups for heifers younger than two years in each breed but for heifers and cows between the ages of two and four years the top prize is $13

In addition to cash for their prize animals the FFA exhibitors have opportunities to win cash and ribbons for fitting and showmanship as they display their animals in the judging ring.

Machinery, All Sizes, Featured At Farm Show

Exhibits that depict trends in today's mechanized agriculture will be a major attraction at the golden anniversary Farm Show, January 10-14

Horace L Mann, show director, said the machinery exhibits include a variety of sizes, ranging from the very smallest to the enormously large pieces that suggest the trend to fewer and bigger operating units in modern farming.

Demand for the "midget" equipment, he explained, has been mushrooming because of its adaptability for garden and truck crops and various other uses about the home, such as mowing lawns and snow removal

Big plow, spray and harvesting rigs are bigger than ever This makes possible, Mann pointed out increasing production per unit of labor saves on hired help, yet enables farmers to keep ahead of growing demands for food crops from an expanding population

State Agriculture Secretary Leland H Bull said the big show will have many new aspects and that both competitive exhibits and the commercial displays will be of highest quality.

Special FHA Exhibits In Homemaking To Be Farm Show Feature

When the Pennsylvania Farm Show opens for its 50th anniversary exposition on Monday, January 10, nine special homemaking exhibits will be judged in competition for $455 in premium awards offered by the Farm Show Commission.

This will be the 43rd Farm Show where vocational school exhibits have been entered in competition, according to Horace L. Mann, Farm Show Director.

Homemaking exhibits for the coming show are being made by Future Homemakers of America chapters in nine schools located in six counties. They were chosen by a special committee from plans submitted by various FHA chapters. The schools were certified recently to the Farm Show Commission by Mrs. Ollo S. Reinwald, State Department of Public Instruction. She is state FHA adviser.

Each exhibit is to convey one central idea based on an approved method or practice in vocational education.

Representing Lancaster County will be an exhibit from Garden Spot High School, New Holland, titled "Pic-Pac-Go." Mrs. Betty S. Smoker is the class teacher.
